## HIGH-EFFICIENCY MUTAGENESIS KIT FOR ANY APPLICATIONS

- QuikChange Lightning - Effective and fast mutagenesis in **< 3 hours**
- QuikChange II - Minimize unwanted errors with **> 80% mutation efficiency**
- QuikChange II XL - Efficient mutagenesis of **large (4-14Kb) or difficult to mutagenize plasmid templates**

## qPCR Master Mix Brilliant III Ultra-fast

- Novel fast Taq mutant for FAST results
- Greater resistance to common qPCR inhibitors (i.e. whole blood or NaCl)
- SYBR Green dye or probe formats  
Low or high ROX concentrations

## qPCR cDNA synthesis kit

- Synthesize up to 12 kb cDNA targets
- Reverse transcribes through RNA secondary structures
- Linear detection from 3pg to 3µg total RNA in 25 mins
- High yielding over a broad temperature range
